

# CHILMINGTON MASTERPLAN

We have carefully designed Chilmington so that the surrounding countryside will be part of the community; even more so with the many connected miles of footpaths, cycleways and bridleways.

Enhancing natural features such as woodland and hedgerows and creating green corridors will see new habitats increasing biodiversity. And with a major tree planting and landscaping programme, Chilmington will not only be a green, welcoming place that all residents can enjoy, but it will also continue to respect its historic setting.

Chilmington will be a great place to live – a place that works for people of all ages and provides a range of community, education and health facilities, with an attractive high street that meets peoples’ daily needs.

Chilmington will grow over time to create three distinct neighbourhoods, and with everything available to you here, it will also be part of you and your family’s future.

- 1 Chilmington Avenue
- 2 Chilmington Square
- 3 Business Offices
- 4 Supermarket
- 5 Market Square, High Street
- 6 Community Hub
  - CMO offices
